## 5-Stage Thermogenic Fat Burner 90 Caps

With so many optional weight loss supplements on the market, choosing the right one can be a little overwhelming at times. From thermogenics, to thyroid hormone increasers, diuretics, and lipotropics, which product is best for you? Pure Advantage has just released ThermoburnII, which contains all of the above products making it a remarkable overall fat burner in one bottle. Theremo-Burn II has five stages of proprietary blended & effective weight loss ingredients. By combining all of these benefits into one capsule, Thermo-Burn II will deliver results you can feel! These Stages include:

- **Stage 1 - THERMOGENIC ACTIVATORS (Proprietary Blend 925mg):** Guarana Seed Extract (standardized for 22% Caffeine), Citrus Aurantium (standardized for 6% Synephrine) Green Tea P.E. 50% Polyphenols, Caffeine USP, Evodiamine 98% and Yohimbine HCl. **Thermogenic activators** are used to enhance the body's metabolic process. The definition of a thermogenic is the production or generation of heat. This phenomenon stimulates the central nervous system and produce body heat while increase energy levels. When the metabolism speeds up, it creates an energy-producing process by converting fats and carbohydrates into fuel. This allows the body to operate on sustained energy levels.
- **Stage 2 - LIPOTROPICS (Proprietary Blend 450mg):** Choline, Inositol, L-Carnitine Tartrate , 7-Keto DHEA, DL-Phenylelanine & Betain HCl. **Lipotropics** help promote the utilization of stored fats by turning them into energy. They promote the export of fat from the liver. Lipotropics are necessary for the maintenance of a healthy liver as well as burning the exported fat for additional energy.
- **Stage 3 - GLUCOSE CONTROL (Proprietary Blend 450mg):** Gymnena Sylvestre, Cinnamon 4:1 Extract& Alpha Lipoic Acid. The **glucose control stage** helps curb appetite and sugar cravings and regulate blood sugar. Gymnema has been shown to reduce sweet cravings. Cinnamon and Alpha Lipoic acid have been shown to regulate blood sugar levels.
- **Stage 4 – Thyroid Activators (Proprietary Blend 150mg):** Guggulsterones, Kelp, L-Tyrosine & Ginger Root Extract. **Thyroid activators** enhance fat burning by stimulating and increasing the metabolism. Guggul increases the rate of fat loss by increasing thyroid hormone levels, and reduces fat deposits. Tyrosine and Iodine (from kelp) are necessary for the body to manufacture thyroid hormone
- **Stage 5 – Diuretic Blend (Proprietary Blend 100mg):** Uva Ursi Extract, Dandelion Root Extract, Juniper Berry Extract. **Diuretics** are used to reduce excess fluids and water retention, and prevent bloating. Uva Ursi Extract, Dandelion Root Extract, Juniper Berry Extract have been used for centuries to alleviate water retention. Diuretics increase urine output and so may assist in the elimination of excess fluids. Many diuretics can cause potassium depletion. Dandelion leaves have a naturally high potassium content which is thought to be responsible for their diuretic action.
